STAFF BOARD AND COMMITTEE REPORTS

1. Minutes

Motion to approve the Finance Committee Minutes of September 5, 2024 made by Trustee Weil, Seconded by Trustee Goldman, all in favor, motion passed.

2. Audit

The Committee reviewed the Audit Report and Clerk Johnson presented the attached notes. The Committee approved the audit for presentation for final approval at the January 27, 2025 Agency meeting.

3. Financials

The Committee reviewed the December 31, 2024 Quarterly Treasurer's Report to be presented at the January 27, 2025 Agency meeting.

Issues which came up for further discussion per review of the Audit Report and the Quarterly Treasurers report were:

- 1. Consideration for negotiating the Building Insurance deductible
- 2. Next Meeting Topics to include discussion of Operating Reserve, along with a possible Section 115 Trust, and the Agency Fiscal Year 2026 Budget.
- 3. Consideration of the Agency sharing solar storage with the Town of Tiburon
- 4. With respect to future cost-sharing agreements between the Agency and the Town of Tiburon, if both parties maintain insurance, it should be determined which agency is the primary insurer.

1-1

4. Employee Benefits

Director Duran presented a background on the 2024 compensation study and staff survey, the subsequent enrollment of employees in a Section 125 plan to allow them to take advantage of pre-tax benefits savings accounts, and the exploration of adding a vision plan and updating the long-term disability and life plans already available as employee benefits.

In addition, Health premiums have risen substantially in the last five years, and has negatively affected employees in terms of substantial premium payments beyond the Library's cafeteria allowance.

Director Duran presented 4 alternatives for a cafeteria allowance increase. The Compensation Committee had already recommended, and the Finance Committee concurred in recommending an increase of the Library's Cafeteria Allowance to \$2,000 be approved at the January 27, 2025 meeting.

5. Next Meeting

The next meeting shall be scheduled when a draft Budget and Operating Reserve policy are ready for review.

Treasurer Slavitz adjourned the meeting at 11:36 am

Respectfully Submitted,

Kristin M. Johnson, Clerk of the Belvedere-Tiburon Library Agency Board

Review of BTLA Audit Draft: Notes

Clerk Johnson noted important highlights in the Audit Financial Statements.

Statement of Net Position (Government-Wide)

There was a decrease in overall net position of \$172,000. Cash decreased by about \$2,200,000 due to use of funds to pay Expansion Line of Credit. Capital Assets decreased by about \$730,000 due to depreciation (all Expansion additions were capitalized in the prior year. Pension Liability increased by almost \$200,000.

Statement of Activities (Government-Wide)

Personnel Expenses increased from prior year by about \$211,000 due to staffing back up to pre-pandemic and construction levels. Program Expenses other than Personnel appear to have decreased mostly due to completion of Expansion activities.

Change in Net Position is better than prior year by \$109,000.

Balance Sheet (Operations)

Fund Balance Decreased by \$2,300,000 (this is different than change in Net Position, as that is Government-Wide, i.e, includes capital assets). The decrease in Operational Fund Balance was due to use of funds to pay off Expansion Line of Credit. (Note that reserves used were generated over 25 years of Foundation grants supplementing Tax Revenue).

Statement of Revenues, Expenditures, Fund Balance (Operations)

Note that this statement includes Expansion Line of Credit payoff as an expenditure, since Operating Reserves were used. The decrease in Fund Balance was greater than the prior year decrease due to the LOC payoff.

Note 5 – Capital Assets (Government-Wide)

Note the large depreciation figure of \$918,000, which contributes along with debt payoff to decrease in Net Position. Without depreciation, Overall activities (General Revenues less Cash Expenses) would have resulted in almost \$750,000 positive change in Net Position.

Note 6 – Long-term Debt (Government-Wide)

Remaining CFD 1995-1 Original Bond Obligation has a total balance of \$343,950, including interest. The Bond will be paid in full in September 2026 (Fiscal Year 2027).

Notes 8 and 9 – Pension and OPEB Liabilities (Government-Wide)

Clerk Johnson recommend that Trustee read this entire note to understand how the liability is calculated and paid. Special attention should be paid to the illustrations of how changes in the discount rate can affect these liabilities. At the current discount

rate of 6.9%, Pension Liability is about \$1,850,000 and OPEB liability is about \$380,000.

Note 10 - Grants

Note that Belvedere Tiburon Library FOUNDATION Grants are \$20,315,791 Inception-to-Date. These contributions over the years allowed for careful budgeting and build-up of Operating reserves, most of which were used to pay off the Expansion Line of Credit.

The Town of Tiburon contributed \$545,275 and the City of Belvedere contributed \$150,000 to the Building Expansion project.

Supplementary Information – Budgetary Comparison Schedule

Operations results were \$609,000 better than budget. The Decrease in Fund Balance was mostly due to Capital Assets Depreciation and to Payoff of Expansion Line of Credit.

Required Communications and Internal Control

The Library received a favorable review.

GASB 103 Upcoming Requirements

Focus on operating versus non-operating clarity in the financial statements has been a priority during the Building Expansion Project. Reporting will be simpler going forward now that the Project has been completed.

| DATE: | April 18, 2025 |
|----------|---------------------------------|
| TO: | Library Finance Committee |
| FROM: | Crystal Duran, Library Director |
| SUBJECT: | Financial Reserve Policy |

The attached Reserve Policy is submitted for Finance Committee review and discussion. This new policy establishes a formal framework for how the Library manages its financial reserves, including their intended purposes, target levels, and oversight. It reflects the Library's commitment to long-term financial sustainability, strategic investment, and responsible stewardship of public and private funds. Adopting a Financial Reserve Policy is also essential in the Sustainable Library Certification program, highlighting the importance of economic feasibility and resiliency.

While the Library has historically maintained healthy reserves, this will be the first formal reserve policy adopted by the Library. The Board reviewed a draft version in October 2023 but postponed adoption to prioritize repayment of the building line of credit. As of January 2024, the Library has fully paid off the line of credit, eliminating all capital debt. With that financial obligation resolved, the Board can adopt a policy supporting risk management and strategic growth.

The new policy defines six reserve categories with clearly stated purposes and targets:

- Operating Reserve To support continuity of operations during emergencies or revenue shortfalls
- Insurance Reserve To cover insurance deductibles and urgent uninsured expenses
- Capital & Maintenance Reserve To ensure long-term care of building systems and infrastructure
- Pension Liability Reserve To offset future increases in employer pension contributions
- Strategic Initiative Reserve To fund non-recurring special projects and innovation efforts
- Restricted Funds Reserve To track and preserve legally or contractually restricted funding

Staff requests that the Finance Committee review the policy and provide feedback to staff. Staff will present a revised draft to the full Board at a subsequent meeting. Establishing this policy is a proactive step toward strengthening the Library's financial infrastructure and ensuring it can respond effectively to challenges and opportunities in the years ahead.

FINANCIAL RESERVE POLICY

April 2025

Purpose

This policy establishes clear guidelines for maintaining financial reserves that safeguard the Belvedere Tiburon Library's long-term sustainability. Reserves may be accessed in the event of emergencies, unexpected costs, strategic projects, or revenue shortfalls, while also supporting long-term liabilities. The objective is to ensure the Library's financial resilience, reduce financial risk, and support investments in critical infrastructure, including sustainability and resiliency initiatives.

Definition of Revenue

Total revenue encompasses all sources of income generated by the Library, including but not limited to:

- Tax revenues
- Donations and grants
- Fines and fees
- Fundraising proceeds
- Investment income
- Other income sources specific to the library

Categories of Reserve Funds

A. Operating Reserve

Maintained to provide liquidity in case of temporary revenue shortfalls or unanticipated expenditures.

Target: 30% of annual operating expenditures, equivalent to approximately 4 months of operating costs.

Typical Use: Emergency operations, major facility repairs, urgent legal or compliance-related costs, and staffing and service continuity.

B. Insurance Reserve

Dedicated to covering insurance deductibles, legal settlements, or costs not covered by insurance.

Target: Minimum Balance of \$550,000

Typical Use: Disaster recovery, claims deductibles, and liability-related expenditures.

C. Pension Liability Reserve

Designated to help stabilize future employer pension costs and reduce exposure to unfunded liabilities.

Target: Initial 7% of annual full-time payroll, with an initial benchmark of \$105,000. Target to increase to 10% in subsequent years.

4 - 2

Typical Use: Offset unanticipated increases in CalPERS employer contribution rates, to make additional discretionary payments (ADPs) toward unfunded liabilities, and reduce volatility in long-term financial planning and budgeting.

D. Capital and Maintenance Reserve

Supports ongoing facilities maintenance and future capital repairs for the Library's physical assets.

Target: A phased, conservative approach to include:

- Initial contribution of \$70,000 or 0.5% of the building's estimated replacement value (currently \$14M)
- Approaching year 5, increase an annual target contribution to 1.0% of replacement value, acknowledging that maintenance demands typically rise as systems age.

Typical Use: Preventative and routine maintenance of building systems, IT and security infrastructure, accessibility-related upgrades, and general repairs.

E. Strategic Initiative Reserve

This reserve supports non-recurring, strategic projects that advance the Library's mission and long-term goals. These initiatives often fall outside the scope of regular operating or capital budgets and may arise opportunistically or in response to emerging community needs. Special projects include sustainability or resiliency initiatives, pilot programs and feasibility studies, professional services for special initiatives, and matching funds for major grant opportunities. The Library will fund this reserve when feasible through year-end surpluses, designated gifts, and Board-authorized fund transfers.

Target: Initial \$300,000 balance, scalable based on project scope *Typical Use*: Projects that align with the Library's Strategic Plan including infrastructure investments, grant matching funds, technical assessments, or pilot projects.

F. Restricted Funds

Restricted funds are resources received by the Library with legal or contractual limitations on their use. These funds must be tracked separately from general operating or board-designated reserves and may not be used for any purpose other than that specified by the donor, grantor, or governing agreement.

Target: No specific dollar target is set for this reserve, as balances will vary depending on active restricted funding sources.

Typical Use: Restricted to purpose(s) specified by the donor, grantor, or legal agreement.

Allocation, Investment, and Management of Reserves

Funds allocated to each reserve category shall be held in designated accounts or investment vehicles consistent with their intended purpose and liquidity needs. All reserve funds shall be managed in accordance with the Library's adopted Investment Policy, which governs how surplus funds are invested. The primary objectives are preservation of capital, liquidity, and a reasonable rate of return.

The Board of Trustees, through the Library Director and Finance Committee, shall oversee the management and reporting of all reserves. On a monthly basis, any approved use of reserves will be recorded in Non-Operating Fund Expenses with planned transfers to and from reserve accounts to typically occur twice annually mid-fiscal year (on or around December 31) and fiscal

Funding and Replenishment Strategy

The Library recognizes that not all reserves may initially meet their designated targets. When a reserve fund falls below its target level, the Library will:

- Develop a targeted replenishment plan within six months
- Prioritize restoration of Operating and Insurance Reserves
- Identify funding sources such as surpluses, gifts, or Board-approved transfers
- Aim to restore reserves within a 2–5 year period, depending on financial conditions

Reserve statuses and replenishment plans shall be included in the annual budget process and reported quarterly to the Board.

Use of Reserve Funds

Reserve funds may be accessed with Board approval for these purposes and are not limited to:

- A. Emergency repairs or disaster response
- B. Revenue shortfalls and economic downturns
- C. Capital improvements and resiliency infrastructure and community safety investments
- D. Pension liability stabilization or reduction
- E. Professional services and special projects

In an emergency, the Library Director may authorize the use of Reserve Funds up to \$30,000 without prior Board approval. All other uses of Reserve Funds shall require formal approval by the Board of Trustees.

Reporting and Accountability

The Library shall provide quarterly financial reports to include:

- Reserve fund balances and activities
- Any transfers, draws, or additions
- Progress toward reserve targets
- Pension liability update

Reports shall be provided to the Board and made available to the public as part of the Library's commitment to transparency.

Review and Amendment

This policy shall be reviewed every two years to ensure its continued relevance and effectiveness. Library management or the Board of Trustees may propose amendments, which shall be subject to approval by the same governing body.
